

Chemical Services Consultation Form

This questionnaire concerns about history of your hair. It is essential that you provide information as accurate as possible in order for us to judge what chemical process would be most suited for your hair. Your hair history will be taken into an account for how the procedure will be conducted. Failing to provide the complete and correct information may result in an unsatisfactory outcome and should this occur, due to the lack of information provided, or our stylists being wrongly informed at the consulting stage before the treatment, Shunji Hair & Make-up shall take no responsibility for the results under any circumstances.

We advise all clients not to wet their hair at least 48 hours after all chemical services (COLOUR/ANY PERM) performed to your hair, not to bend or tie your hair with hair bands/clips, not to receive any other chemical service for at least 10 days. Please note that if it is apparent that you have washed or wet your hair within 48 hours despite our advice, or received any other chemical service within the 10 days, we will not take any responsibility for the results. We don't accept any claim for a refund or re-do the process if you informed us after 10 days had passed from the date you have had a chemical service (COLOUR/ANY PERM) done even if there were some problem to your hair.
